Run 1139 - 24 Mar 2003 - Tramway - CorPus-L & Mouse's

Prerun drinks enjoyed as usual at the ONON venue to take advantage of the Happy Hour prices. The pack was looking good with a visitor from Va. USA, DICKLESS LIZZARD and another from Mt. Manganui PORTHOLE. While waiting for our run to start, in walk a few of the MEN's hash for their own Piss Stop, and so SPROGGY could say hello to PORTY. Finally conceding that those present would be the only one's attending, the pack reluctantly left the comfort of the TRAMWAY's for the uncertainty of some exercise.

With the information that our trail would cross the MEN's trail, the pack set off down Adelaide Rd to the first Check. After wandering around for a while CORPUS-L decided to go back to pick up the horn. While he was gone, Nip-L found what turned out to be the previous weeks trail. Rather than looking for the real trail, an executive decision was made, the trail was imagined to come out at the

top of Drummond St. So the pack wandered up Tasman St. to the Check right where the trail was expected to come out. SCRAC being first to the Check, raced off down Tasman St. while the pack caught up. Before the trail could be found SCRAC stumbled across the ON HOME. From this point the trail was run backwards due to the information that there was a Piss Stop on the run. After following the NO NO trail up Westland, it went through an alley way to the Prince of Wales Park carpark where much to our surprise, the Piss Stop was seen.

And who was coming from the other direction, none other than the afore mentioned Hare who had gone off to get the horn. In an attempt to catch the pack he had short cut in front it. Not realising he was in front, he followed the trail across to Wallace St. then up to Hargreaves and into the Prince of Wales Park from the other end. Rather than follow the trail up over the hill to the pathway to Dorking Rd, then down to the Scottish Harriers carpark, he short cut across the park to see the rest of the pack already at the Piss Stop at the carpark. After a few beers the pack carried on the trail in the right direction with SCRAC telling CORPUS-L his only mistake in setting the trail was setting the ON HOME to close to a check.
